INTRODUCTION:

The Graduate School is pleased to present the Annual Statistical Report for the 2000-2001 Academic Year. This document provides detailed reporting on many aspects of graduate education and financial support for the academic year that includes the 2000 summer terms, Fall 2000 and Spring 2001 semesters. Data are provided on applications, enrollments and degree productivity by college and individual program, as well as on assistantship and fellowship support.

The Annual Statistical Report is divided into three sections. The first section provides a synopsis for the 2000-2001 Academic Year, as well as a graphical summary of trends over the last eight years. University-wide data are reported that track degrees, enrollments and applications from the 1993-1994 Academic Year to the present; particular attention is paid to the activity and degree productivity of minority, Kentucky resident, and international student populations. In addition, enrollments and degrees are reported graphically by college for the last 5 years. An overview of 2000-2001 graduate student support and recent doctoral placements concludes the section.

The second section provides the tabular data on graduate activity that has traditionally formed the core of the Annual Statistical Report, with breakdowns on enrollments, degrees and applications, as well as tables that detail graduate student assistantships and support by college and graduate program. As you will see, the combination of teaching assistant, research assistant, graduate assistant and fellowship support (including tuition scholarships) was nearly 35.8 million dollars for 2000-2001.

The third section contains individual profile pages for each of the University’s graduate programs. These profile pages offer a concise account of the academic activity and support associated with each graduate program, including a detailed report of all Graduate School funding obtained by the program.

I hope you find the information contained herein to be useful in program review and planning activities. If you have questions or need additional data, please contact my office in the Graduate School.

Douglass S. Kalika, Acting Dean
The Graduate School
NOTES:

Academic data reported in the *Annual Statistical Report* (applications, enrollments, degrees) are for the 2000-2001 Academic Year which encompasses the 2000 Four-Week Intercession, the 2000 Eight-Week summer session, Fall 2000 semester and Spring 2001 semester. Students enrolled in more than one graduate program during the 2000-2001 academic year are reported in the most advanced (concurrent students) or last program.

**Race/Ethnicity Reporting:** Race/Ethnicity data are collected for domestic applicants (U.S. citizen or permanent resident) on a voluntary basis. Available designations are Hispanic (H), Black/Non-Hispanic (B), Asian/Pacific Islander (O), White/Non-Hispanic (W), American Indian (I). Minority applicants are the sum of populations H, B, O, and I. The designation Black in this report corresponds to the Black/Non-Hispanic category available on the UK application and includes African Americans.

**Selectivity & Yield:** The parameters Selectivity and Yield reflect the fraction of applicants that are admitted to the Graduate School and the fraction of admitted applicants that enroll, respectively. Selectivity ($S$) = fraction of applicants with a complete application who are admitted to the Graduate School. Yield ($Y$) = fraction of admitted applicants who subsequently enroll at the University. Selectivity and Yield are calculated for degree programs (Doctoral, Specialist, Master’s), only.

**Assistantships and Fellowships:** The number of assistantships (Teaching Assistants, Research Assistants, Graduate Assistants and Fellows/Trainees) were determined for each program using 2000-2001 payroll data; only enrolled graduate students in these designations were counted. The figures reported are headcounts, and do not reflect fraction of effort. The headcounts reported for Fellows include all full Fellowships and Traineeships, as well as other partial or supplementary fellowship awards. The stipend totals reported for TAs, RAs, GAs, and Fellows/Trainees are for the entire 2000-2001 fiscal year; again, only support for enrolled graduate students was counted. The figures for tuition scholarships reflect University tuition scholarships, as well as external tuition scholarships paid through certain fellowships and other assistantships.
Annual Statistical Report
2000-2001 HIGHLIGHTS

- A total of 1274 graduate degrees were awarded in 2000-2001: 219 doctoral, 13 specialist and 1042 master’s. Of these degrees, 760 were awarded to Kentucky residents.

- Overall enrollment for the 2000-2001 academic year was 6640, which represents a 3.6% increase over 1999-2000.

- The Graduate School received a total of 8975 applications in 2000-2001, an increase of nearly 17% over the previous year. The number of completed applications was 6323, an increase of 13.4% over 1999-2000.

- 590 new, non-degree students took advantage of the GIFT (Graduate Incentive Free Tuition) program in Spring 2001. GIFT allowed each of these students to enroll in one graduate-level course tuition free.

- The doctoral program in Rehabilitation Sciences (College of Allied Health) enrolled its first students in 2000-2001.

- 102 Lyman T. Johnson Fellowships were awarded in 2000-2001, as compared to 88 awards in 1999-2000.

- 259 Commonwealth Incentive Awards were awarded in 2000-2001, as compared to 127 awards in 1999-2000.

- Total graduate student support for 2000-2001 was nearly 35.8 million dollars, an increase of 6.8% as compared to 1999-2000.
