The Graduate School Annual Statistical Report
INTRODUCTION:

The Graduate School is pleased to present the Annual Statistical Report for the 2002-2003 Academic Year. This document provides detailed reporting on many aspects of graduate education and financial support for the academic year that includes the 2002 summer terms, Fall 2002 and Spring 2003 semesters. Data are provided on applications, enrollments and degree productivity by college and individual program, as well as on assistantship and fellowship support.

The Annual Statistical Report is divided into three sections. The first section provides a synopsis for the 2002-2003 Academic Year, as well as a graphical summary of trends over the last decade. University-wide data are reported that track degrees, enrollments and applications from the 1993-1994 Academic Year to the present; particular attention is paid to the activity and degree productivity of minority, Kentucky resident, and international student populations. In addition, enrollments and degrees are reported graphically by college for the last 5 years. An overview of 2002-2003 graduate student support and special programs concludes the section.

The second section provides the tabular data on graduate activity that has traditionally formed the core of the Annual Statistical Report, with breakdowns on enrollments, degrees and applications, as well as tables that detail graduate student assistantships and support by college and graduate program. A new section for this year provides detailed information on distance learning.

The third section contains individual profile pages for each of the University’s graduate programs. These profile pages offer a concise account of the academic activity and support associated with each graduate program, including a detailed report of all Graduate School funding obtained by the program.

I hope you find the information contained herein to be useful in program review and planning activities. If you have questions or need additional data, I encourage you to contact my office or the Institutional Assessment Analyst in the Graduate School.

Jeannine Blackwell, Dean
The Graduate School
NOTES:

Academic data reported in the Annual Statistical Report (applications, enrollments, degrees) are for the 2002-2003 Academic Year which encompasses the 2002 Four-Week Intersession, the 2002 Eight-Week summer session, Fall 2002 semester and Spring 2003 semester. Students enrolled in more than one graduate program during the 2002-2003 academic year are reported in the most advanced (concurrent students) or last program.

Race/Ethnicity Reporting: Race/Ethnicity data are collected for domestic applicants (U.S. citizen or permanent resident) on a voluntary basis. Available designations are Hispanic (H), Black/Non-Hispanic (B), Asian/Pacific Islander (O), White/Non-Hispanic (W), American Indian (I). Minority applicants are the sum of populations H, B, O, and I. The designation Black in this report corresponds to the Black/Non-Hispanic category available on the UK application and includes African Americans.

Assistantships and Fellowships: The number of assistantships (Teaching Assistants, Research Assistants, Graduate Assistants and Fellows/Trainees) were determined for each program using 2002-2003 payroll data; only enrolled graduate students in these designations were counted. The figures reported are headcounts, and do not reflect fraction of effort. The headcounts reported for Fellows include all full Fellowships and Traineeships, as well as other partial or supplementary fellowship awards. The stipend totals reported for TAs, RAs, GAs, and Fellows/Trainees are for the entire 2002-2003 fiscal year; again, only support for enrolled graduate students was counted. The figures for tuition scholarships reflect all University tuition scholarships, as well as tuition scholarships paid through certain fellowships and other assistantships.
Annual Statistical Report
2002-2003 HIGHLIGHTS

- A total of 1269 graduate degrees were awarded in 2002-2003: 208 doctoral degrees, 20 specialist and 1041 master’s degrees.

- 67% of all graduate degrees in 2002-2003 were awarded to Kentucky residents: 87 doctoral degrees and 748 master’s & 18 specialist degrees.

- Overall enrollment for the 2002-2003 academic year was 7234, a record high number.

- Doctoral enrollment (2259) and master’s & specialist enrollments (3600) were both at an all-time high in the 2002-2003 academic year.

- The Graduate School received 8374 completed applications in 2002-2003, an increase of 22% over 2001-2002.

- Total graduate student support for 2002-2003 exceeded 44.7 million dollars.

- The Graduate School awarded 343 KGS tuition scholarships for the 2002-2003 academic year.
